MULTI CCTV CAMERA AND ACCESSORY REGULATED POWER SUPPLIES

The EPS-12DC24AC and EPS-12VA9 power supplies provide centralized power sources for CCTV cameras and/or accessories. The power input, transformer, DC Power Circuit, DC Distribution Circuit and AC Distribution Circuit (on the EPS-12DC24AC) all with independently protected inputs and outputs are housed in heavy-duty, easy-to-install cabinets with key locks.

Model EPS-12DC24AC

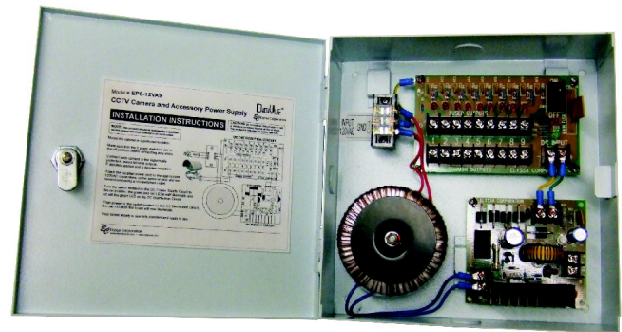

- Cost Effective Way to Power Multiple Cameras
- 9 Individual 12V DC Outputs with LED Indicators
- 4 Individual 24V AC Outputs with LED Indicators
- 4 Amp Continuous Current at 12V AC
- 2 Amp Continuous Current at 24V AC
- Terminal Block for Easy Installation
- Individually Protected PTC type Fused Outputs
- Heavy-Duty Cabinet with Key Lock
- Power Cord Included

SPECIFICATIONS:

Input Voltage: 120V AC
Supply Current: 4A @ 12V DC
2A @ 24V AC
Output: 12V DC @ 400MA / Channel
24V AC @ 500MA / Channel
Fuse Type: PTC (500MA Cutoff)

Model EPS-12VA9

- Cost Effective Way to Power Multiple Cameras
- 9 Individual 12V DC Outputs with LED Indicators
- 4 Amp Continuous Current
- Terminal Block for Easy Installation
- Individually Protected PTC type Fused Outputs
- Heavy-Duty Cabinet with Key Lock
- Power Cord Included

SPECIFICATIONS:

Input Voltage: 120V AC
Supply Current: 4A @ 12V DC
Output: 12V DC @ 400MA / Channel
Fuse Type: PTC (500MA Cutoff)
