MINI INDOOR CAMERAS SCANNER WITH WIRELESS REMOTE CONTROL

Model
ESMA-012

The ESMA-012 is a compact, indoor remote controlled/automatic camera panning drive. It allows a single camera to cover a wide area with constant back and forth scanning, or to pinpoint a specific spot in the covered area via wireless remote control. This permits one camera coverage of a particular area without losing viewing flexibility.

SPECIFICATIONS

- Accepts most cameras
- 30° to 350° scanning range
- Camera mount adjustable for tilt angle
- Controls: Off (D), Auto (C), Left (B), Right (A)
- Power supply: 9 Volts AC / 500mA (AC/AC adapter included)
